

6000DXS

Heavy-Duty Air Filtration for Contaminated Environments

With 36 lb. of carbon and a 3.5" filter depth, our 6000 DXS is our largest, most powerful air purifier in our smoking series. It provides the most effective removal of contaminants produced by cigarettes, and is ideal for extremely smoky environments, or for the customer who wants the most filtration available on the market.

Why AllerAir Air Purifiers

Backed by unparalleled expertise in air quality control and a superior filtration system, AllerAir air cleaners are individually customized to target the airborne pollutants of concern in the environment. Our units offer more filtration media than any other manufacturer, with the deepest carbon bed filters for chemicals, gases and odors, and superior medical-grade HEPA filters for particle control.

Cleaner Indoor Air

Clean air is recognized as a vital component for overall comfort, workplace health and safety as well as productivity. According to research from leading organizations like the EPA, WHO and Health Canada, indoor air pollution may pose more of a public health risk in North America than outdoor air pollution.

Green Features

- All-metal housing
- Ozone-free filtration technology
- Energy efficient
- Refillable carbon canisters
- Styrofoam free
- North American sourced parts and materials
- North American assembly

Technical Specifications

Carbon Filter	36 lb., 3.5" depth
HEPA Filter & Pre-filters	Micro-HEPA wrap, Tar-trapping pre-filter
Options	UV Light, Custom Carbon Blends
CFM	400 Free flow
Voltage	115V/60Hz or 230V/50Hz
Dimensions	23.5" (height) x 15" (diameter)
Shipping Weight	Approx. 66 lbs. 2 boxes
Available Colors	Black, White, Sandstone
