

AirTube SUPREME

Perfectly Portable Air Purification Solutions

With all the filtration power of a serious air cleaner, the convenience of a portable unit and a completely compact size, the AirTube series is the ideal companion for the frequent traveler and the person on the go, or for use on desktops and in small spaces.

Why AllerAir Air Purifiers

Backed by unparalleled expertise in air quality control and a superior filtration system, AllerAir air cleaners are individually customized to target the airborne pollutants of concern in the environment. Our units offer more filtration media than any other manufacturer, with the deepest carbon bed filters for chemicals, gases and odors, and superior medical-grade HEPA filters for particle control.

Cleaner Indoor Air

Clean air is recognized as a vital component for overall comfort, workplace health and safety as well as productivity. According to research from leading organizations like the EPA, WHO and Health Canada, indoor air pollution may pose more of a public health risk in North America than outdoor air pollution.

Green Features

- ✓ All-metal housing
- ✓ Ozone-free filtration technology
- ✓ Energy efficient
- ✓ Refillable carbon canisters
- ✓ Styrofoam free
- ✓ North American sourced parts and materials
- ✓ North American assembly

Technical Specifications
