

**Industrial Strength HEPA Filtration System**

# Air Quality Issues?

## Get the BEST in Air Filtration!

What does this system remove from the air?:

Where can this system be used?:

- Construction/Renovations
- Real Estate Home Showings
- Redecorating
- Smoke Rooms
- Emergency Clean Room

Anywhere where clean air is needed!

.... and much more!

### Why this system can solve YOUR air quality problems:

**HEPA FILTRATION** is used in **hospital operating rooms**, and in controlling **nuclear contamination** in the Atomic Energy Industry. So you **know it works!**

**CARBON FILTERS** remove **gaseous contaminations** such as **odors & chemicals**.

**PLUG IT IN AND TURN IT ON!** No Installation necessary.

**POWERFUL MOTOR** that quickly filters the air **removing many harmful contaminants** quickly.

## Industrial Strength HEPA Filtration System

### Features of the Airwash Cart:

- Pre-filter Door** - easy access to filter
- Foam Pre-filter** - Captures larger particulate and protects HEPA Filter
- HEPA Filter** - removes 99.97% of particulate that is 0.3 microns in size and larger (1 micron = 1/1,000,000th of a meter)
- V.O.C. Filter** - removes gaseous contaminants & chemicals. (Heavy Duty V.O.C. Canister available)
- On/Off Switch** (at rear) - simple controls, plug it in & turn it on.
- Powerful / Efficient Motor** - designed for continuous use
- Metal Cabinet** - durable and emits no toxins.
- Metal Cart** - rugged construction for durable mobility

### Where can this system be used?:

- Construction/Renovations** - get rid of the dust and particles that are thrown into the air.
- Real Estate Home Showings** - ensure unwanted smells/allergens don't deter potential buyers.
- Redecorating** - remove many chemical smells and particles that are released during redecorating.
- Smoke Rooms** - turn any sealed room into a smoking room that will not contaminate the rest of the building.
- Emergency Clean Room** - for sensitive home projects or industrial/commercial applications
- Mould Remediation** - captures and removes airborne mould spores
- Anywhere where clean air is needed!**

### How fast can this unit clean all the air in my space?

	1000 sq ft (8,000 ft <sup>3</sup> )	1200 sq ft (9,600 ft <sup>3</sup> )	1500sq ft (12,000 ft <sup>3</sup> )	1800 sq ft (14,400 ft <sup>3</sup> )	2000 sq ft (16,000 ft <sup>3</sup> )	2500 sq ft (20,000 ft <sup>3</sup> )	3000 sq ft (24,000 ft <sup>3</sup> )	3500 sq ft (28,000 ft <sup>3</sup> )
<b>6000V Airwash Cart (600 cfm)</b>	once every 13 min & 20 sec  (4.5 ach)	once every 16 min  (3.75 ach)	once every 20 min  (3 ach)	once every 24 min  (2.5 ach)	once every 26 min & 40 sec  (2.25 ach)	once every 33 min & 20 sec  (1.8 ach)	once every 40 min  (1.5 ach)	once every 46 min & 10 sec  (1.3 ach)

\*ach stands for 'Air Changes per Hour': An indication of how many times each hour, all of the air in a given space can be filtered through the unit.  
 \*\*All volumes of air in this chart are based off rooms with 8ft ceilings.
