Let Nature Back Indoors

BA-2080 - The Only
ALL IN ONE
Indoors Purification System

www.better-air.com

Betterair BA-2080

The only Multi-Dimensions Purification System :

Cleans and protects your entire space
Air-Surfaces- Objects

World health Organizations declare surfaces
and objects the main source for allergens
and pathogens of infectious diseases

The only professional hybrid system
providing true HEPA air purification H13 &
H14, and betterair patented Enviro-Biotics
embedded system for surfaces and objects
bio-leaning.

Boost you Immune System:
By restoration of Ecological Balance of
your indoors. Germs and allergens are
substituted with beneficial probiotics
that fosters wellbeing

Why do you need BA 2080 in your indoor space?

- **MULTI-DIMENSION PURIFICATION** of bacteria, viruses, mold, allergens and bad odor of your entire surroundings - Air-Surfaces-and Object.
- **SAFE** - the **only** multi-dimension sustainable and safe technology – no harmful radiation and no ionization.
- **POWERFUL**-Filtering engine with over 600 CADR filtering power, providing an effective coverage of a large space
- **ADAPTIVE**- Strength of cleaning is adjusted automatically by a real-time, continuous sensor monitoring
- **EASILY MAINTAINED** filter and refills exchanged under a minute
- **PROTECTED INVESTMENT** - Built with best of breed components; protected by a 3 years of full warranty on everything – no exclusions

Betterair, an American Israeli - South Korean biotech company, invented and pioneered a Bio-Cleaning devices that are based on a patented Enviro- Biotics® (environmental probiotics) technology for the active bio-cleaning of entire indoors space.

Enviro- Biotics® technologies and systems are protected by multiple registered patents.

Enviro- Biotics® harnesses the power of nature to restore ecological balance of our indoors space in a safe manner for people and environments,

Enviro-Biotics® creates a probiotic protective layer on surfaces and objects which reduces the likelihood of infectious diseases caused by pathogenic bacteria, viruses, molds, and allergens.

Deployment of Enviro- Biotics® with powerfull True HEPA reduces :

Infectious diseases transmission

Antibiotic Resistant Bacteria

Allergic reactions & irritation, fatigue, and coughing

Allergies caused by dust mites, pollen, and pet dander

Asthma attacks

Bad odors resulted by Mold, Smoke, Formaldehyde among others

Use of harmful chemicals and detergents

BA - 2080 Specs & Technical data :

Dimension: (76 cm) x W (31 cm) x D (31 cm)
Voltage and Frequency: Choice of 2 models 100~120Vac/50~60Hz or 220~240Vac/50~60Hz
Power: 3 to 50 watts determined by degree of filtering strength
Multi touch operation screen
Automatic Mode for sensor based adaptive operations
Open cover switch protection
Fan speed :5 speeds
Both Timer and Night Modes
Laser practical sensor
Particles Efficiency Rate: 0.997 for H13; 0.9997 for optional H14
Particles Size ≥ 0.3 microns (μm)
Viruses and Bacteria Efficiency Rate: 0.99
True 360-degree multi-layers HEPA Filter by 3M; H13 or H14
Motor: Nidec DC Brushless Motor
Noise level: 27 - 52 DB (27- night mode; 52 – highest fan speed)
CADR (Clean Air Delivery Rate): 610 (m^3/h), 356 (CFM)
Suitable for area Cleans entire air every 30 minutes in room of 110 square meters (1200 sf)
Warranty: 36 months for all parts and labor when operated serviced according to instructions
Weight: 12.2 Kg (27 lbs.)
