

RAP 48 CC

Indoor Air Filters for Industrial Chemical, Gas & Odor Control

Electrocorp's Radial Air Purifiers (RAP) CC series is our most efficient design for industrial and commercial chemical, gas and odor control.

The RAP series are plug-and-play units, requiring no dedicated electrical installation. Ideal for small businesses to large industrial indoor applications, RAP's are recirculating, freestanding units engineered to offer superior air filtration with a small footprint and a quiet, modern design.

The Electrocorp Advantage

Backed by unparalleled expertise in air quality control and a superior filtration system, Electrocorp cleaners are individually customized, industrial air filters that target airborne pollutants. Our units offer more filtration media than any other manufacturer, with the deepest carbon bed filters for chemicals, gases and odors control. These units provide meticulous air cleaning for environments where chemicals, gases, odors and biological contaminants are the main concern.

Technical Specifications

Carbon Filter	120 lbs. (4 x 30 lbs.)
Filtration System	Industrial-grade 10-micron pre-filter (blue tacky) material Electrostatically-charged particle wrap (white), 99% efficient at 0.1 microns
CFM	250-1350 2000 CFM
Dimensions	62" x 22"
Shipping Weight	Approx. 235 lbs.
Options	Custom carbon blends

Eco-Friendly Features

- Metal Housing
- Ozone-free
- Energy efficient
- Refillable carbon canisters
- North American parts and materials
- North American assembly
