

Let's Begin!

Do not operate the unit until completing these steps first

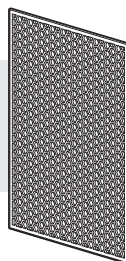

Front panel

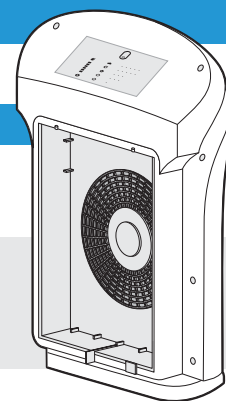

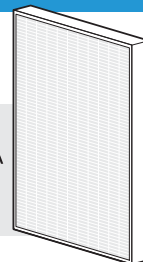

Pre-Filter

Charcoal-Based
Activated Carbon
Filter

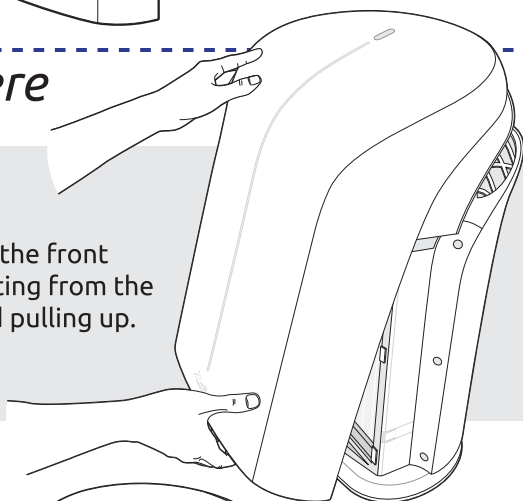

BioGS HEPA
Filter

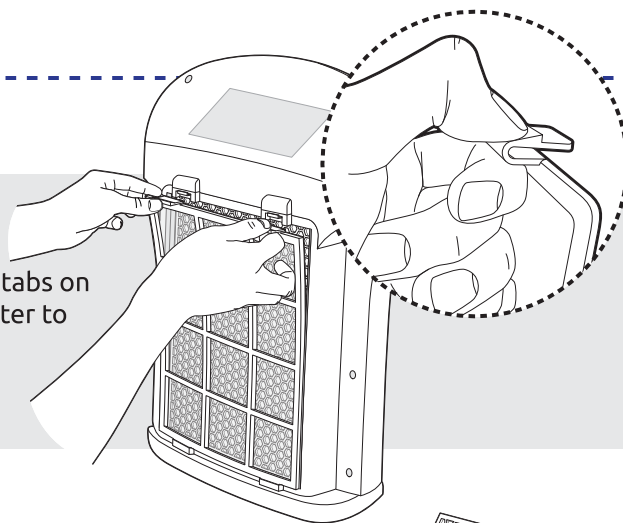

Start Here

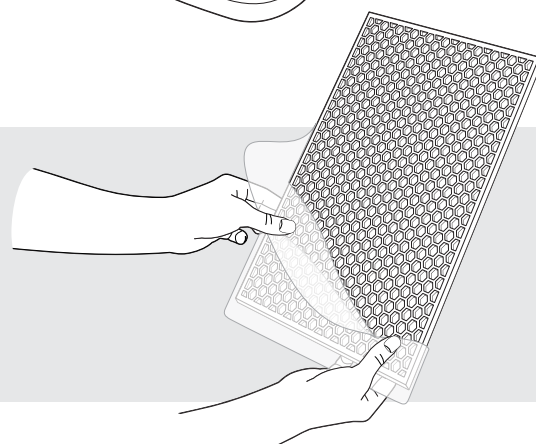

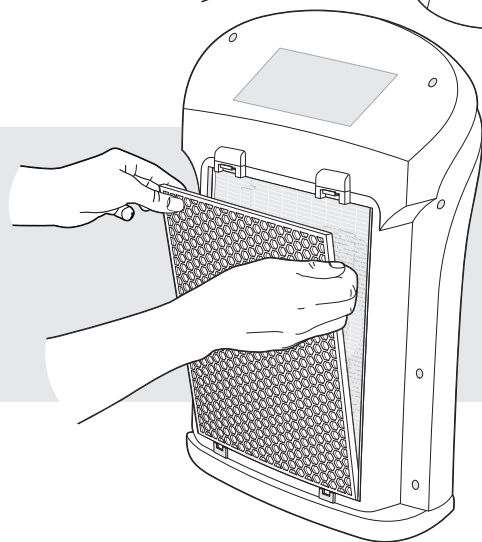

1. Remove the front panel by lifting from the bottom and pulling up.

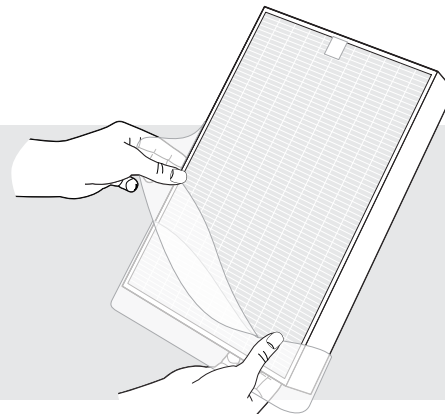

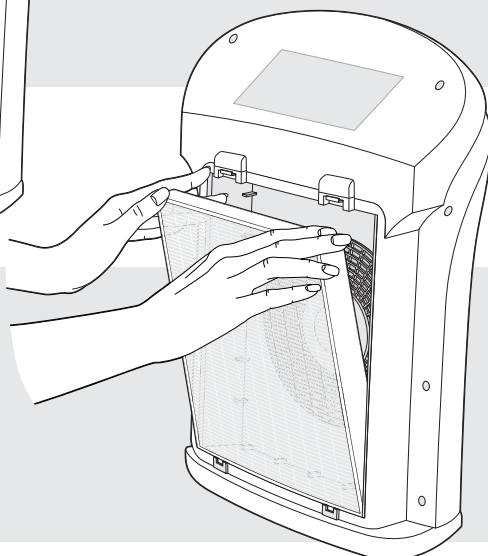

2. Pinch the two tabs on top of the Pre-Filter to remove it.

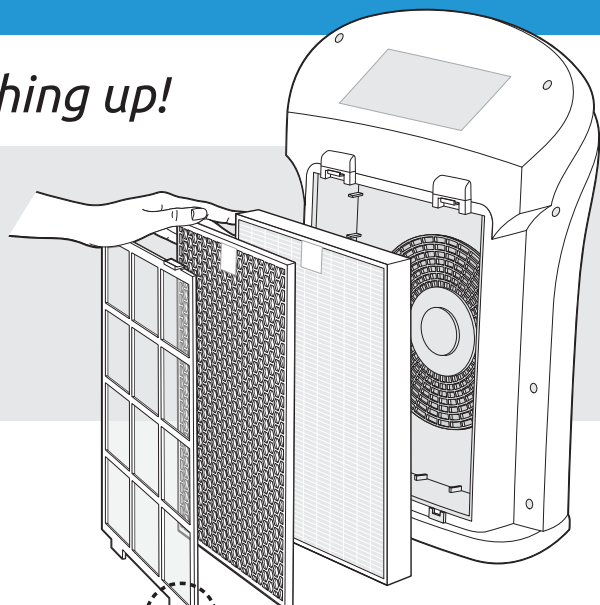

3. Pull out the Activated Carbon Filter and discard its plastic wrapping.

4. Remove the HEPA Filter and discard its plastic wrapping.

Finishing up!

5. Return the filters to the filter case in the following order from back to front:

BioGS HEPA Filter
Activated Carbon Filter
Pre-Filter

6. Reattach the front panel.
